1. This Office action is in response to the after final amendment filed 7/9/04 and entered, and the telephonic interview of 8/2/04.

2. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

In claims: cancel claims 23-34 as being drawn to a nonelected invention.

3. Authorization for this examiner's amendment was given in a telephone interview with Jimmie Johnson, Esq., on 8/2/04.

4. The following is an examiner's statement of reasons for allowance: as applicants note, Keller does not use its supercritical fluid for the purpose of dissolving a catalyst compound for later deposition on a support, Hoel is silent as to use of supercritical fluids as solvents for metallocenes in depositing them upon supports, and McLaughlin, although it discloses use of supercritical fluids in dissolving catalyst compounds, is primarily drawn to the catalysts being salts rather than organometallic compounds, let alone metallocenes.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
